

Missouri Red Angus Field Day
September 24th, 2011
Glenn and Randy Brown
Diamante Ranch, Diamond, MO

The Diamante Ranch was one of the most beautiful ranches that we have had the privileged to tour. Taking on the field day we know was a huge task and undertaking. We want the crew at Diamante to know we appreciate their hard work and diligence it took to put a field day together.

We would like to express our appreciation for the wonderful welcoming field day. Everyone had a most enjoyable and very informative day. The meal was absolutely scrumptious!! I don't know who the Chef was, but he did an absolutely incredible job.

The excellent meal was supplied and served by **Pfizer Animal Health (Ed Trotter)** and **Main Street Feed (Tim Dieckhoff)** of Monett MO. The MRAA would like to thank them for doing such an excellent job and for their generosity in supplying the meal.

The cattle at the Diamante Ranch looked awesome, bulls and the females were very impressive. Their breeding program looks real solid and promising. We are looking forward to the bright future and influence in the Red Angus and other breeds from their battery of bulls.

The Brown's have an array of photos of the field day if anyone would like to see them, go to <http://diamanteranch.net>.

The Missouri Red Angus members are glad to have Glen and Randy Brown in our membership and proud to have them promoting and improving the breed we love. We appreciate the hard work and money it took to put on our field day.

We want to also thank the sponsors and contributors at the field day:

Silver Spur Ranch---donation of 5 straws Peerless and 5 straws Momentum

Main Street Feeds---donation of bull feed and mineral

Joplin Stockyards----Dectomax and vet supplies

Twyman Red Angus---Cookies and Candle

Diamante Ranch----donation of semen on Diamante, Henry, Leprechaun and All Around.

Harmony Hills----donation of semen on Packer

Genex-----semen certificate and collection certificate

Gratefully,
Missouri Red Angus Association
