ROBIN KLEINE, 219.306.0323

### WELCOME TO THE OZARK RED ROUNDUP SALE!

During the cattle boom of 2015, there were record-setting events across the nation with cattlemen selling their highest priced cattle up to that date. It was a heck of a year! During the rise of beef cattle prices, the Red Angus breed rose above all others within the beef industry to stand alone as the most sought after commercial cattle in the world. From 2010-2014 Superior Livestock Video Auctions report that Red Angus cattle outsold all other beef breeds including black cattle, and they continue to do so through the spring of 2016. The "Red Revolution" is on and I would like to personally invite you to one of the most prestigious Red Angus events of the year, the Ozark Red Roundup.

The Missouri Red Angus Association has made great strides the last few years in developing one of the most successful cattle auctions in the industry. As you study this catalog, you will see many of the breed's top bloodlines from some of the region's top cattlemen and women offered at auction. The excitement surrounding this set of cattle, embryo and semen lots is mounting with calls increasing on a daily basis. If you want to get into one of the most dependable and sought after breeds of beef cattle in the world, mark your calendar and plan to be in Springfield, Missouri April 16th.

Beyond the cattle, this is a people business. As we get ready for the Ozark Red Roundup, I personally get excited to see and work with some of the best folks in the industry. With Gilchrist Red Angus auctions, you will not just get a bunch of hype, you will see and meet some of the hardest working Red Angus cattle producers and buy their cattle with a degree of confidence that they will stand behind their cattle. There are cattle and genetics offered in this auction that can take your Red Angus program to an entirely new level. For this reason, you cannot afford to miss this final Red Angus event of the spring auction season.

Finally, as you search through the lots and investigate the pedigrees, EPDs, stats and figures, feel free to give any of the consignors a call for more details on the cattle they are selling. If you need any assistance, I will be glad to help you make your selection decisions. From registered Donor Females to commercial heifers or bulls, this offering has something for everyone. If you cannot attend the auction, please give me a call to place your bids or join us on DVAuction to bid and buy live during the real time production.

Thank you for your interest in this event. Lisa and I look forward to seeing you Friday April 15th and Saturday April 16th in Springfield, Missouri and remember . . .  
"the Red Revolution is on!"

Best Regards,

*Kyle & Lisa Gilchrist*

## *Terms -*

TERMS OF THE SALE ARE CASH, CHECK, OR OTHER TERMS AGREED TO IN WRITING BETWEEN THE SELLER, BUYER, AND SALE MANAGER PAYABLE IMMEDIATELY UPON CONCLUSION OF THE SALE BEFORE ANIMALS WILL BE MOVED. SALE MANAGER RESERVES THE RIGHT TO REQUIRE A CERTIFIED CHECK AS SETTLEMENT BEFORE RELEASING ANY CATTLE.

## *Purchaser's Risk -*

ALL ANIMALS ARE THE OWNER'S RISK PRIOR TO THEIR SALE AND BECOME PROPERTY OF THE PURCHASER AS SOON AS DECLARED SOLD BY THE AUCTIONEER.

## *Bidding -*

ANY DISPUTES OR CHALLENGES REGARDING BIDS OR TIE BIDS WILL BE SETTLED BY THE AUCTIONEER AND HIS DECISION WILL BE FINAL.

## *Certificate of Registry -*

A CERTIFICATED OF REGISTRY FOR EACH ANIMAL WILL BE TRANSFERRED TO BUYER AT THE SELLER'S EXPENSE.

## *Announcements -*

ANY ERRORS OR CHANGES IN INFORMATION CONTAINED IN THE CATALOG WILL BE ANNOUNCED FROM THE BLOG AND SUCH ANNOUNCEMENTS SHALL TAKE PRECEDENCE OVER THE INFORMATION CONTAINED HEREIN.

## *Health -*

ALL ANIMALS ARE ELIGIBLE FOR INTERSTATE SHIPMENT. INTERSTATE HEALTH PAPERS PREPARED BY AN ACCREDITED VETERINARIAN WILL BE FURNISHED ON EACH ANIMAL SOLD. ARRANGEMENTS FOR INTERNATIONAL SHIPMENT SHOULD BE MADE WITH THE SALE MANAGER PRIOR TO THE AUCTION. ALL EFFORTS FOR EXPORTATION OF CATTLE CAN BE ARRANGED THROUGH THE SALE MANAGER.

## *Breeding Guarantee -*

ALL ANIMALS ARE GUARANTEED BY THE SELLER AS OUTLINED IN THE RED ANGUS ASSOCIATION OF AMERICA CODE OF ETHICAL SALE PRACTICES.

## *Liabilities -*

ALL PERSONS WHO ATTEND THE SALE DO SO AT THEIR OWN RISK. THE SELLER, AUCTION FACILITY, AND SALE MANAGER ASSUME NO LIABILITY FOR ANY ACCIDENTS THAT MAY OCCUR. NEITHER DOES THE SELLER, AUCTION FACILITY OR SALE MANAGER ASSUME LIABILITY FOR THE LOSS OR INJURY TO LIVESTOCK DUE TO THEFT, MYSTERIOUS DISAPPEARANCE, SICKNESS, IMPROPER HANDLING OR ACT OF GOD. IT IS TO BE CLEARLY UNDERSTOOD THAT THE SALE MANAGER AND ITS REPRESENTATIVES ACT ONLY AS A MEDIUM BETWEEN THE BUYER AND THE SELLER. THEY ARE NOT RESPONSIBLE IN ANY WAY FOR THE FAILURE ON THE PART OF THE BUYER AND THE SELLER TO LIVE UP TO THEIR OBLIGATIONS OR FOR THE TRUTH OF ANY WARRANTIES OR REPRESENTATION, EXPRESS OR IMPLIED. NEITHER DOES THE SALE MANAGER ASSUME ANY FINANCIAL OBLIGATIONS TO COLLECT OR ENFORCE COLLECTION OF MONIES BETWEEN PARTIES. ANY LEGAL ACTION, THAT MAY IN EXCEPTIONAL CASES BE TAKEN, MUST BE BETWEEN THE BUYER AND THE SELLER. THIS CATALOG HAS BEEN PREPARED BY THE SALE MANAGER FROM PEDIGREES AND INFORMATION SUPPLIED BY SOURCES DEEMED RELIABLE, HOWEVER, THE SALE MANAGER WILL IN NO WAY GUARANTEE THE PEDIGREE, PERCENTAGES OF THE ANIMALS SELLING, OR DATA INCLUDED IN THIS CATALOG. ANY EXCEPTIONS TAKEN ARE BETWEEN THE BUYER AND THE SELLER.

## *Contract -*

Bachman Cattle Farms Donation Female

Bachman Cattle Farms is pleased to present this fantastic open heifer as a donation to raise funds for the Missouri Red Angus Association’s Junior program. She represents some of the best we keep for our replacements and certainly this BIEBER REAL McCOY Y124 – HUS MS JOLENE 30IN daughter puts it all together, showing what we mean by “BACHMAN BRED.”

She has been stout all her life, a strong and vibrant 94lb. calf that grew to wean out a 704lb. adjusted weaning weight – a solid 116 ratio. She will bring growth, maternal and carcass traits together in a phenotypically excellent package.

Bachman Cattle Farms will donate this heifer plus match bids up to \$5,000 to help develop a well-funded Junior program. She’s a special open heifer and we want to support a special group of juniors and their parents.

## OFFERING CHOICE OF 2/3 OF OUR GRAND CHAMPION PEN OF HEIFERS AT THE 2016 NWSS

Lacy's Red Angus reserves the right to one(1) flush (ET or IVF) with a minimum of four (4) grade #1 embryos. Flush to be performed at buyer's convenience & seller's expense.

Here is your chance to obtain some of the most sought after genetics in the breed, right from the very top of the Lacy herd. LACY LAKOTA 7097 422 & LACY LAKOTA 7097 482 were in our Grand Champion Pen of Heifers at the 2016 National Western Stock Show and represent what our program is all about. They are the result of mating the most prolific cow lines of the Lacy herd. Sired by maternal leader CCF GOLD BAR 0251 & out of a tremendous 5L Signature 5615 daughter that has done nothing but produce.

If you like feminine females with breed leading milking ability & udders ...Take your pick home and let her move your program forward. Only one will sell.

#### OPEN HEIFER

LACY LAKOTA 7108 091C is a fancy dark red heifer that combines the power of Saga 1040Y and the style & femininity of Gold Bar 0251. She'll look great in the show ring & even better in your pasture.

#### COW/CALF PAIR

CONSIGNED BY: Harmony Hills Red Angus / Larry & Marilyn Ellison

This is the one we just couldn't part with when we dispersed in 2014 - this cow is "the one we kept" - "the Best of the Best". It takes a powerful cow to consistently produce powerful bulls and females - "Oakleaf is that powerful cow! Just a five year-old daughter of the great Cowboy Cut, we bought Oakleaf as the second high selling heifer calf in the 2011 Canadian Royal from the renowned Mile High Herd in Alberta. She is big and she is massive but she is also extremely feminine and very fertile with a beautiful udder that produces a lot of milk. She has been a show ring winner and she has produced some outstanding calves. Her first two calves were bulls and sold into registered herds. She has always settled on the first breeding. We flushed her once and got seven #1 eggs from Mulberry (she settled Al the next heat) which were sold to Rhodes Red Angus. Her 2014 heifer by GMRA Peacemaker is awesome and will be available for viewing sale day. This heifer will be shown in 2016 and 2017 by our granddaughter and then is destined to serve as the base for a new Harmony Hills venture for us and our son - a herd of Red Angus/Hereford cross females. More good news - Oakleaf sells with a bull calf Lot 5A - (born 3/6/16) at side sired by OBCC Upper Hand 803B - a black, polled purebred Simmental bull from Owens Brothers that is a maternal brother to their \$25,000 sale topper in last Spring's sale. She sells open and ready to flush! Upper Hands Simmental numbers are: Weaning 67.9; Yearling 97.8; Milk 21.9 and Ribeye 1.03. This should be one fantastic Sim/Red Angus calf. Tie into this super, young donor female if you want to propel your herd into the next generation of Red Angus recognition! It's too bad that we weren't able to get a current picture of her before the catalog went to press because she is truly an impressive looking female. We will have a picture before sale day so give Larry a call if you want to see it.

**YOUR OPPORTUNITY TO BUY ONE OF THE THREE GREAT WINDSONG MULBERRY DAUGHTERS.**

This is one of the three fantastic "Windsong Trio" that Shoal Creek has based their Red Angus herd around. They bought their first Windsong, Harmonys Windsong 0269, as the \$14,000 top-selling lot at this sale in 2013. They liked her so well they bought possession and interest in her two flush sisters from us privately for big \$\$.

The progeny from these three cows are the cornerstone of their red herd and they have not sold a heifer from any of these three cows – but they are ready to share the "factory" with other progressive breeders in this sale. The dam of 0259, BJR Windsong 2269, was our first Red Angus female many, many years ago – we flushed her many times and then sold her to Majestic Meadows where she went on to become one of the most recognized donors in the breed. 0259 resembles her great dam in so many ways – she is powerful and massive and a great milk producer. Most breeders picked this female as the best of the three Mulberrys. In this sale in 2014, we sold many daughters, granddaughters and descendants of 0259 and the other great Windsongs – many went to the renowned Rhodes Red Angus herd in Kansas. Darryl Rhodes has subsequently bought other Windsong females and embryos at private treaty – including daughters and embryos from this great cow. Another great Windsong, Harmonys Windsong III sold as the top lot in the 2014 sale to Kyle Gilchrist and James and Linda Campbell.

The place of honor the Windsong females hold and have held in the Darryl Rhodes herd, the Majestic Meadows herd, in the Shoal Creek herd and in many other herds across the nation is a testimony to the greatness of this illustrious female family.

**Lot 6 HARMONYS WINDSONG 0259**

**BRED FEMALE**

Just a 7 year old, this great female has a lot to offer her new owner. AND THE NEWS IS EVEN BETTER – She sells bred AI on 11/28/2015 to Majestic Lightning 717 and has been ultra-sounded safe to that AI service. Shoal Creek has several progeny from Lightning and the other Mulberry sisters on the ground and they will tell you they are awesome! Embryos from 0259's flush sister Harmonys Windsong U28E sell as Lot 236 & 237.

CONSIGNED BY: Shoal Creek Land & Cattle / Ed & Kathi Rule, Owners; J.R. Richburg, Cattle Mgr. & Harmony Hills Red Angus / Larry & Marilyn Ellison

**Shoal Creek Land & Cattle, Lots 7 - 16 (Fall Bred Cows)**

For the past three years we have only offered a set of fall bred heifers here at the Ozark Red Roundup. Each year they were met with anticipation for quality by progressive breeders looking to add to their fall calving herds. 2016 marks the first time we have ever offered any fall bred cows. This group was bred in the Lacy program and has turned into a very efficient and hardworking set of cows. Several of them have been the dams of the bred heifers here in past sales, while a few bring a daughter to the sale this year in the bred heifer division. They just turned six years old this fall, hard to believe when you see how youthful they are in their look.

They are all bred to SCLC Cowboy Cut 4016, a son of the great Solution Genetics bull Red Lazy MC Cowboy Cut that has sired many high selling females and herdsires across the country. 4016 was the top son of our first ET calves out of Harmonys Windsong 0269, the Mulberry donor that topped the sale here in 2013 at \$14,000. We would expect his calves to carry on the same power, dimension, and look combined with the efficiency and femininity found in the Lacy bred females.

THESE LOTS FEATURED ON PAGES 9-11.

### BRED FEMALE

Perhaps one of the best balanced of the cows in the offering in terms of phenotype, production, and genetic predictors. 9104 marks high in both Herdbuilder and Grid master Indexes and charts a very nice set of EPDs ranking in the top 3% on WW, top 3% YW and top 1% REA.

### BRED FEMALE

You may find 9117 to be a bit of an outlier in the pen. She's a larger framed, bigger outlined female that is still a massive middle daughter of CCF Gold Bar 0251. 9117 charts a top 24% YW EPD, as well as CW, REA, and a Grid Master Index in the top 19% or better. Her daughter SC Lakota A3016 was a standout in the Sim x Red Angus bred heifers we offered in the Gathering at Shoal Creek Sale last spring.

### BRED FEMALE

Here's a practical sized, square built daughter of Mission Statement out of a Cherokee Canyon dam. 9257 is one that has always been easy fleshing and plots a very balanced set of EPD's with a nice birth to yearling spread and all the carcass numbers well in the right directions. Her daughter SCLC Karen 2011 was one of our top selling fall bred heifers at the Ozark Red Roundup in 2014 that went to Hudspeth Farms of Arkansas. **BRED FEMALE**

Here's another female that fits the pattern of the group. A moderate sized, nice uddered daughter of 5L Norseman King. 9124 balances a +5 CED with WW and YW EPDs that rank in the top 37 and 33 percentiles. Not to mention the bred in efficiency with a -3 ME EPD and carcass EPD's that mark positively across the range of traits.

120 Herdbuilder and 50 Gridmaster, this Future Design x Make Mimi has the numbers behind her to stay current for many years to come. High calving ease, lots of growth at weigh up times, and really solid final product numbers, there will be lots of mating options no matter which direction you want to go. Her mating to the Windsong son SCLC Cowboy Cut 4016 should yield some really explosive performance.

The story on Lacy Sirena 9163 is much the same as her herd mates, a testament to the consistent type that the Lacy breeding program produces. Solid genetic predictors on paper that mark positive Index scores, top 6% WW, top 10% YW, top 20% Stayability, along with carcass indicators all in the upper percentiles. Take note her progeny have earned her an MPPA of 108.

### BRED FEMALE

Here's a 4 year old female that is sired by Red SSS Oly 554T and out of Lacy Hazel 9161 who also sells as Lot 15. 1028 is one of the bigger outlined females in our four year olds and she has been a solid producer. Her first two bulls were the easy selling kind with her 2014 bull calf being our heaviest natural calf at weaning time. She backs that up with top tier WW and YW EPD's. Her calves have earned her a 108 MPPA. The mating to SCLC Cowboy Cut will stack the growth genetics on here along with the cow power of the Windsong family. Pasture Exposed 12/22/15-2/1/16 to SCLC Cowboy Cut 4016 (RAAA #: 3472721)

### BRED HEIFER

Here's a really nice fall bred heifer to lead off our group. SCLC Karen 4009 is one that is very complete and balanced in terms of size, body, structure, and look. The added feature is that her data set reads with balance and efficiency. She's the kind that can fit a variety of breeding programs no matter which way you want to go. This type of female can be a very versatile breeding piece. I look forward to positive reports when her calf by SCLC Cowboy Cut 4016 hits this fall.

### BRED HEIFER

I've had my eye on this one since a very early age. A daughter of the Mann Ranch herd sire SLGN Wideload out of one of the nicest uddered 4 year old females we have. This one is long bodied, smooth shouldered, and really extended through her front one third with a nicely balanced set of EPD's on paper. Her calf this fall should really be a stylish and stout one sired by SCLC Cowboy Cut 4016 that combines the cow power of Windsong 0269 and the efficiency and maternal design of her Lacy bred dam. Take advantage here, last I heard Mann Ranch was holding the Wideload semen off the open market. The daughters are sure to be special breeding pieces.

**BRED HEIFER**

SCLC Annie 4018 is one that should be easy to find sale day and even easier to like. She's a practically sized daughter of Eye Spy out of a Legacy dam. Balanced and attractive on the profile with an added shot of shape and dimension through her body. she will be sure to catch your attention. Combine that look with plenty of growth, efficiency, and carcass merit on paper and this one could easily pay for herself when her SCLC Cowboy Cut 4016 calf hits the ground this fall.

**OPEN HEIFER**

Miss Pinny is the daughter of the breed leading sire KCC PINNACLE 949-109 RAAA 1486656 1A. Her dam is very well bred from Pelton Red Angus in Kansas. She exhibits the strong characteristics of her sire, offering low birth weight, solid milk and high marbling - desirable traits for your herd. A good footed heifer who is long bodied and capacious with excellent muscling.

Miss Pinny was Grand Champion Red Angus Heifer at the Arizona National Livestock show December 2015.

**OPEN HEIFER**

Martin's Aubri is a very well structured and muscled heifer whose sire is the excellent calving ease bull Regent. Regent is very well structured moderately framed bull with heavy muscling and an excellent disposition. Her dam is from Pelton Red Angus in Kansas and her sire was bred at Harmony Hills Red Angus. She is halter broke and has been in the show ring.

**OPEN HEIFER**

Mercedes 1504 comes out of a first calf Heifer that I purchased in Vic Westphals sale in 2014. I love these Dynotrade females and have sold at least one in the Roundup for the past 2 years. They all carry great disposition, conformation, and style. Mercedes pedigree is strong also with Right Kind on the dam side and 5L Tradesman on the Sire side. This Heifer is halter broke and would make a terrific 4-H or FFA project.

**OPEN HEIFER**

Every time I saw Kyle last year, he would challenge me to bring my best to Springfield in 2016. I did. C10 is donor potential and quality anywhere she goes. Her dam is a direct 807 daughter that is the most consistent and proven donor we have on the farm. She breeds back every year AI in one cycle after flushing. Her dam has produced our main herd sire, Gran Torino, and also produced a heifer for our partner that won the Nebraska Cattlemen's Classic this Spring and is now calling the Overmiller ranch home after selling at auction for \$9,500.00. C10 has the bone, capacity, length and easy fleshing ability of her dam. She actually won her class at this year's Dixie National show while having come out of the pasture only 3 weeks prior to the show. No show barn for her. She has the power and natural feminine look of her mother. The combination with Cutting Edge has only strengthened that standard. Kevin Blair will tell anyone Cutting Edge has produced some of his best females. Folks, this is the Red Angus female at its best. She would be a great addition to any of our large ranchers, or a true foundation piece for a more moderate herd. We call her Little Nan and she is the type that makes all of us proud to be Red Angus breeders. She sells open and ready to breed.

## TY-BE FARMS, LOTS 34 &amp; 35 [FALL BRED HEIFERS]

We are selling all of our 2014 fall born heifers this spring as breds except for one joint owned female that the partner refuses to sell.

Each heifer has been pasture bred to RMS Ballentine 4164 who was our selection and high selling bull at the 2015 Shuey Stock Farm Annual Bull Sale. Ballentine was the second high gaining bull on test and fourth overall in COG while starting with a mere 58# birthweight. He is very structurally correct, big boned, big footed, and long with a great disposition. Ballentine is one of the first and best Red U2 Mission 61W sons born in the States. While he is a great candidate for heifer breeding, the resulting progeny will be special. Each heifer was PE from Nov 25 to Feb 23 and are confirmed bred.

Each heifer was tested BVD-PI negative and had full modified live vaccination program.

**OPEN HEIFER**

Here is a heifer that comes out of one of our top cowlines. We decided that if we were going to bring something down to this sale it was going to be out of the top of our herd. Her dam is a moderate framed female with a MPPA of 102. Her granddam consistently produces progeny that rise to the top every year. She has an MPPA of 105 and ratios of BW 102(9) WW 106(9) and YW 104(6). If you like the deep ribbed, wide topped kind take a serious look at this heifer. We know she will end up in someones donor pen. Retaining the right to one flush at sellers cost and buyers convenience.

"WITH **MULTIMIN® 90**, 3% MORE OF  
OUR YEARLING BULLS PASSED THEIR  
BREEDING SOUNDNESS EXAM."

At Fink Beef Genetics, we've been using **MULTIMIN® 90** on our yearling bulls for three years now with good results. Last year we participated in a trial through Kansas State University in which 500 of our fall born bulls received **MULTIMIN® 90** in April, at weaning, when about 7 months of age and again in July, when about 10 months of age. By the middle of September they received a full BSE semen check and we found that by one year of age we were able to increase the number of bulls that semen checked by about 3% overall.

Even though they came from only 50 to 75 miles away, the blood work showed differences between the herds in the amount of selenium and other trace minerals. To me that meant **MULTIMIN® 90** is a big equalizer, a product that breaks down over time and helps level out the differences in some of these animals that come in from different areas.

We intend to keep using **MULTIMIN® 90** after seeing these significant benefits.

# Red Angus Guide to EPDs

**HB** ..... HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

**GM** ..... GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

**CED** ..... Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

**BW** ..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

**WW** ..... Weaning Weight and **YW** ..... Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

**Milk** ..... Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

**ME** ..... Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

**HPG** ..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

**CEM** ..... Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

**STAY** ..... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

**MARB** .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

**YG** ..... Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

**CW** ..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

**REA** ..... Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

**FAT** ..... Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

**Ranch Tested. Rancher Trusted.**

# Brickhouse Farms Bull Development

Located in North Central Tina, Missouri the bulls got acclimated to an ever changing environment. Grandpa always said, "If you don't like the weather just wait another day."

These bulls were housed in a roomy 4 acre rectangular paddock with 155 feeder heifers across the fence (exercise was not a problem). We use a vertical mixer and presented the feed into concrete, fence line bunks as a TMR (Total Mixed Ration). These bulls were fed fescue hay, Staymoist protein, corn silage, Amino Gain, and cracked corn with a target diet of 54 mCAL.

## ALL BULLS WERE:

- 50K TESTED,
- BREEDING SOUNDNESS EXAMINED
- WEIGHED FOR AN ADG TEST THAT COVERED 112 DAYS
- ULTRASOUND EXAMINED FOR REA, MARBLING, & BACKFAT

All vaccinations have been administered so bulls will be fully ready for turn out at auction time. All data recorded will be available in a supplement sheet the day of the sale.

**BULL**

A calving ease son of Andras Fusion at ABS. He ranks in the top 7% for CED, 14% for BW, 4% for M and 10% MB. He has eight traits in the top 30% of the breed. Out of a first calf heifer that is very well made, with many great sires in his pedigree --- Rich Future, Chateau, Hobo, In Focus and Andras Thunder. He should make a great heifer bull, good enough for any cow herd!

**BULL**

Here is a bull you can use on heifers as well as cows without sacrificing growth in your calf crop. Take a look at his EPD profile, top 22% HB, 20% GM, 14% CED, 11% BW, along with an AWW of 603. Our program does not feed any creep prior to weaning as we feel this helps show us which cows are genetically superior. This bull is out of probably the easiest fleshing cow in our herd, she can stay fat on air and water practically.

**BULL**

This is a sleep all night heifer bull, but he is so much more. He had a BW ratio of 91 and started growing when he hit the ground to a 106 weaning ratio. He is out of a first calf Hughes W109 daughter. Our Hughes daughters are some great females, that we wish we had more of. His sire is probably the best Sequoya X361 son we have raised and were able to sample in herd on our heifers. With a HB of 138, top 14%, HPG in the top 15%, and STAY in the top 12% use this guy to produce replacement females and improve herd genetics.

**BULL**

If you are looking for a national caliber Red Angus bull to use on heifers, here he is! A combination of Above & Beyond from a Conquest daughter, he ranks in the top 1% of the entire breed for BOTH CED and BW and is in the top 12% for Herd Builder and Grid Master. You will drive a lot of miles to find a bull that will match his statistics and design. Don't miss his incredible spread of 46 lb. BW to 611 lb. WW! Spud AB is a one-of-a-kind herd bull prospect.

**BULL**

Be sure and check out this deep ribbed, highly capacious Conquest son in Springfield. He offers a 10 CED EPD with a strong 681 lb. weaning weight to ratio 104 in the Trescrosses program. The Conquest genetics have dominated the breed for good reason - they are complete with calving ease, growth, maternal and carcass traits. If you haven't tried one yet, put Lot 67 on your "buy list" April 16th.

Selling 3 embryos with guarantee of one pregnancy if input by Certified Embryologist within one year. Ellie was our purchase and the high selling female at the 2012 Damar Sale. As our daughter's show heifer she won Grand Champion Female at both the Dixie National and Tennessee State Fair. She is one of the biggest boned and best rear end Red Angus females I have ever seen. The Eleanor family is an old line in our breed and Ellie will carry that proud line into the future with great style. She is a power female. She has a tight udder and perfect foot. Like all the Cowboy Cut daughters we have been around, her disposition is impeccable. When we saw Crimson Red up close in Fort Worth I knew immediately what Ellie was going to be flushed to. He has the best hoof on a RA bull I have seen. Natural muscle and growth are extraordinary. Anyone who knows the Shueys knows what they are doing on the cutting edge of the commercial beef business. If you don't, you need to. This breeding should be desired by anybody that wants to be on the frontlines of our beef business. As leading edge as you can get in our breed.

# WindSong Opportunities

YOUR CHANCE TO BRING THE GREAT WINDSONG GENETICS INTO YOUR HERD IN TWO DIVERSE WAYS. Harmony Hills best cow family was prominently on display in our dispersal at the 2014 sale with many of the lots going to Rhodes Red Angus in Kansas and one great female going to Iowa to the Gilchrist herd. We sold part interests in the three Mulberry sisters privately to Shoal Creek in north Missouri and these embryos are out of one of those great females – Harmonys Windsong U28E. A daughter of this great cow and her heifer calf at side was the top seller in the 2014 sale going to Kyle Gilchrist.

If you want a shot at putting your prefix on some of the best Red Angus / Simmental genetics available, here is your chance. Selling 4 embryos sired by the hard to get Lock N Load, the most sought after baldy, black Simmental bull in the breed. Shoal Creek will have a bunch of these calves on the ground in 2016 and 2017 and you can bet you will be proud to have some of your own on the way. Lock N Load was the \$36,000 (1/2 interest) bull in 2009 for Remington Ranches. was Junior Champion at Agribition and is the sire of many awesome baldy bulls and females. His Simmental EPD's are : Birth .9; Weaning 56.7; Yearling 112.6; and Ribeye 1.40. Embryos are stored at Cross Country Genetics North – sold with no pregnancy guarantee.

# Ty Be Farms

Red Angus

We established our herd with one thing and one thing only in mind,

## THE GREAT RED ANGUS FEMALE.

Blockanna, Bonnell, Eleanor, Mimi, these are legendary lines in the Breed. Each of these great Red Angus donors in our pen allow us to focus on clean udders, sound feet, big bone, correct structure, fertility, and vigor. A better bull has to be born from a better female. And that is our focus.

We sell commercial bulls private treaty and also offer our best seedstock females to give outcross opportunities to our Red Angus friends.

Take a moment to call & visit about what our focus can do for your herd.

Brad: 417/437-5052 or Tim: 731/676-3133

We were fortunate to be partners with Ludvigson's and a few other breeders as the original owners of this breed changing bull. These are our last 18 straws. Ludvigson and other herds have produced so many breed leading bulls and quality females from this powerful sire. The last semen in our tank - stored at Genex at Strafford. Must be shipped out by May 31.

Selling 10 straws.

Here is an opportunity to purchase some semen straight out of the heart of the RA Brown Ranch program. This bull goes back to 5L Destination on the sires side and out of a P707 daughter. He is a calving ease bull that will sire great females along with steers that will press the scales with added pounds. He ratioed 140 on IMF and 104 on REA. Semen will be at the sale or can be shipped at buyers expense. Buyer must provide shipper.

Selling 10 straws.

Where do I start on this semen package? Here is a Paramount son out of the Famed Abigrace L7730 cow. His Dam has nearly sold \$2 million in progeny sales for the RA Brown Ranch. He is a moderate birthweight bull with adequate growth and amazing numbers on the maternal end. If you want to produce an outstanding set of replacement females here you go. He also ratioed 161 IMF and 106 on REA. Semen will be at the sale or can be shipped at buyers expense. Buyer must provide shipper.
